BUTECH STATE OF THE ART STRETCH LEVELER CAPABILITIES

- F** .074" through 1" thick
- F** Through .500" thick, 100 KSI max yield
- F** .500" through .625" thick 50 KSI max yield
- F** Width: 36" through 76"
- F** Length: 48"min – Gauge dependent max
- F** Materials Processed: HR/HRPO/CR/Coated

BUTECH STATE OF THE ART STRETCH LEVELER BENEFITS

- F** Alleviates residual stresses throughout the entire sheet of steel
- F** Less head / tail scrap
- F** Potential "lights out" laser processing
- F** Reduce / eliminate part tabbing
- F** Ability to nest on entire width and length of sheet
- F** Reduce / eliminate post-flattening
- F** Hold tighter tolerances during part bending
- F** Please watch our stretch leveler video:

MECO TEMPER MILL

- F .071" - .750" x 96" (Mild Steel) Capacity
- F 68" - 720" cut lengths
- F Ability to temper coil-to-coil
- F Up to 90,000# master coil weights

TEMPER LEVELING BENEFITS

- F "Memory-free" steel sheets for lights-out laser applications
- F Enhanced surface condition from chrome plated temper mill rolls
- F Ability to control gauge

STAMCO SLITTER

- F .074" - .625" thickness capacity
- F 29" - 74" wide master coil
- F 90,000# max master coil weight
- F Up to 82" OD
- F Slit cuts down to 1.50"

BUTECH 50" LEVELER

- F .074" - .375" (Mild Steel Capacity)
- F 5.50" - 50" width range
- F 30" - 480" cut lengths
- F Unique capability for long, narrow blanks, avoiding secondary cutting in your facility
