PATTERN PRESSING FOR COILED METALS

Create **raised or textured patterns** on metal surfaces to add depth, character, and visual appeal. It's a powerful way to enhance the look and function of materials across many industries, including:

- Appliances (refrigerators, walk-in coolers)
- HVAC (heating, ventilation, and air conditioning)
- Decorative applications
- Construction
- And more!

Embossing Capabilities

Material Type	Aluminum	CR, Galvanize, Galvalume, Painted
Thickness Min/Max	.015"-.060"	.015"-.040"
Master Width Min/Max	20"/60"	20"/60"
Number of cuts	1	1
Master OD Min/Max	35"/72"	35"/72"
Finished OD Min/Max	35"/72"	35"/72"
Master ID Min/Max	20"/24"	20"/24"
Finished ID Min/Max	20"/24"	20"/24"
Max Master Coil Weight	50,000 lbs.	50,000 lbs.
Max finished Coil Weight	50,000 lbs.	50,000 lbs.
Patterns Available (both sided)	Seville 101, Stucco	Seville 101, Stucco
